

HOGS.

There is a big beef and pork packing establishment going up on the line of the S. P. R. R. not far from Vallejo.

The promoters offer to take 200,000 Nevada hogs at Chicago rates.

But Nevada hasn't the hogs. Enough goes to waste every year in this State to raise those 200,000 hogs, and the Chicago rate is higher than hogs ever brought in this State before.

Here is another industry for Nevada. Let it raise hogs for California. The pork of Nevada is recognized by packers as far superior to California pork, as firmer and sweeter in every way.

Suppose we could raise and sell 2,000,000 hogs and upwards each year and sell to California; it would mean at least one million dollars coming into this State.

But now Nevada spends about that amount purchasing pork from St. Louis and Chicago. Suppose we reverse the thing?

THE DISTRICT FAIR.

The proof of the pudding is mainly in the eating thereof.

The District Fair managers are paying off the premiums on exhibits in cash, the full State Fair rates.

It was the general impression that the premiums he would be about 50 per cent of the State Fair rates.

Our District is now the most solid financially in the State, and if there is not a rush for premiums and big competition next year it will be strange.

The men who have managed the District Fair have been subjected to considerable criticism and not a little abuse, but they have put the Society on its feet and deserve full credit for their work.

WAITING.

The Democrats are not doing much talking about the Speakership just now. They are waiting for the Ohio election to give them a pointer. If McKinley is elected and there is no reason for thinking otherwise, it will kill off Mills as a candidate for Speaker, as it will be recognized as a verdict by the people against free trade which is the corner stone of Mills' political creed, and some man will be selected for Speaker who is more moderate in his tariff views. The Speaker, it must be remembered has it in his power to absolutely control the legislation of the House by making up the important committees in accordance with his own ideas. Should McKinley be defeated; Mills, free trade, free coinage and free whiskey will be in Supreme control of the Democratic party councils, both in Congress and in the Presidential campaign.

Will It Go To the Courts?

There is considerable talk among tax payers of contesting the Act creating the State Board of Assessors and Equalization on the ground that it is unconstitutional. It is believed that the provisions of the act conflict with Article VIII, Section 2 of the State Constitution, which says:

"All real property and possessory rights to the same, as well as personal property in this State, belonging to corporations now existing or hereafter created, shall be subject to taxation the same as property of individuals."

And with Article X, Section 1, which says:

"The Legislature shall provide by law for a uniform and equal rate of assessment and taxation, and shall prescribe such regulations as shall secure a just valuation for all property, real personal and possessory."

It is contended that the Act creating the State Board of Assessors does not provide for a uniform rate of assessment and taxation.
